

Warner Pacific University Introduces Automatic Admission For Church Of God Member-Families

GET A DEGREE THAT LETS YOU LIGHT UP THE WORLD.

Warner Pacific University is proud to be rooted in the Church of God Movement, a legacy we have held since 1937. As the only Church of God university in the Pacific Northwest, we especially seek to serve, encourage, and lift up our area's CHOG congregation members to pursue the callings the Lord places in every heart, with the support of quality, Christian higher education. We therefore warmly welcome all active members of Church of God congregations – whether direct from high school or working adults – to apply to Warner Pacific. **Warner Pacific University will provide a free application process to all Church of God member-families and employees, as well as grant automatic admission to the university pending receipt of required transcripts.**

“It’s so important to us to walk beside our church families with supportive, high quality, Christ-centered education that strengthens our local community of Believers,” said WPU President Brian Johnson. “We want you to know, we are here to help you pursue a career in concert with your calling. You are most welcome at WPU!”

Warner Pacific offers many exciting pathways that empower Christian leaders to meet the most pressing needs of our community – from ministry opportunities, to healthcare, to education, to business, to organizational leadership, to athletics, and more. Students will find a caring, supportive environment on the beautiful Warner Pacific campus, where Jesus is the Subject and students flourish.

In addition, for working adults, WPU offers master’s degrees, bachelor’s, and associate degrees. Classes are offered in the evenings, weekends, and online modalities – and programs begin almost every month so you can get started on your degree immediately.

We invite you to personally contact our Vice President of Enrollment, Dr. Darilis Garcia, to discover how we can grow in partnership to your church and support your educational and professional journey. Please contact: dgarcia3@warnerpacific.edu to take the next step.
